ITA-STQB

ITA-STQB (ITAlian Software Testing Qualifications Board) is the Italian Board of **ISTQB®** (International Software Testing Qualifications Board), global leader in the Software Testing Certifications, with over 400.000 "Certified Testers" in the world as of June 2015.

ITA-STQB is active since 2007, reaching more than 2.200 certified professionals in December 2015.

Since 2013 it also offers the **REQB®** (Requirements Engineering Qualifications Board) certification and since 2014 the **CMAP©** certification (Certified Mobile App Professional).

Follow Us On...

Thanks to successful previous editions, ITA-STQB is organizing in Milan the sixth edition of the **Italian Software Testing Forum.**

This Call for Presentation aims at collecting speeches for the conference to be held on Thursday June 16th, 2016.

STF 2016 will have the support of leading International Experts from industry and academia, sharing ideas, experiences and giving a broad view on advances in software and services quality.

INVITATION TO SUBMIT YOUR EXPERIENCE

We are open to welcome presentations that will be included in the afternoon sessions of the Conference.
The selection will be made by the *Program Committee*.

Presentations have to deal with experiences in testing, software quality and requirements engineering; a priority will be assigned to presentations dealing with the following key-topics:

- **Testing of "Mobile" applications**
- **Agile testing**
- **Model-based testing**
- **Security testing**
- **Usability testing**
- **Requirements engineering in contexts of agile development**
- **Requirements engineering for "Mobile" applications**
- **Usability Requirements Engineering**
- **Analysis of the Benefits of Testing and Requirements Engineering**

To submit your application, send to info@ita-stqb.org and marketing@ita-stqb.org **within April 10th 2016** your proposal, consisting of the presentation title, speaker (name and affiliation), and a 1.000-characters abstract

The selection of the proposals will be based on the following criteria: subject, innovation level, maturity of experience, consistency with Software Testing Forum key topics.

All applicants will receive a feedback within April 30th 2016.
