ITA-STQB

ITA-STQB (ITALian Software Testing Qualifications Board) is the Italian Board of **ISTQB®** (International Software Testing Qualifications Board), global leader in the Software Testing Certifications, with over 307.000 “Certified Testers” in the world as of June 2013.

ITA-STQB is active since 2007, reaching more than 1.100 Certified Testers in June 2013.

Since 2013 it also offers the **REQB®** (Requirements Engineering Qualifications Board) certification.

Follow Us On...

Thanks to successful previous editions, ITA-STQB is organizing in Milan the fourth edition of the **Italian Software Testing Forum**.

This Call for Presentation aims at collecting speeches for the conference to be held on Tuesday June 24th.

STF 2014 will have the support of the leading International Experts from industry and academia, sharing ideas, experiences and giving a broad view on advances in software and services quality.

INVITATION TO SUBMIT YOUR EXPERIENCE

We are open to welcome presentations that will be included in the afternoon sessions of the Conference.

The selection will be made by the *Program Committee*.

Presentations have to deal with experiences in testing and software quality; a priority will be assigned to presentations dealing with the following key-topics:

- **Agile Testing**
- **Testing of Mobile Applications**
- **Quantitative Analysis of the Benefits of Software Testing**
- **Requirements Engineering**

To submit your application, send to info@ita-stqb.org **within April 10th 2014** your proposal, consisting of the presentation title, speaker (name and affiliation), and a 1.000-characters abstract

The selection of the proposals will be based on the following criteria: subject, innovation level, maturity of experience, consistency with Software Testing Forum key topics.

All applicants will receive a feedback within April 30th 2014.
